

## A CASE STUDY

### Project Title:

Little Jack Horner's – We Built this Village on Sausage Rolls

### Brief Description:

Little Jack Horner's, based in Mells, Somerset, was established seven years ago and is a bakery specialising in sausage rolls. Meat for the sausage rolls is sourced within the Heart of Wessex LAG boundary and all staff live locally. Little Jack Horner's are proud of their "secret recipe" which is used to make the pastry for the sausage rolls.

Little Jack Horner's applied for LEADER grant funding to purchase a new industrial dishwasher and oven to speed up and increase production. This increase in production would allow for a 0.5 FTE permanent staff member and for the existing dishwasher to be trained in other areas of production.

The project was successfully completed in January 2017.

Please see link to their website <http://www.ljhorner.com/>

### Level of Grant/Investment:

LEADER Grant award £5,014.24 representing 40% of total project costs.

### Outcomes:

- Support for Micro and Small Enterprises
- 0.5 FTE
- Other businesses directly benefitting
- New techniques
